TROOPS CURB RIOTING MINERS

ORDER RESTORED IN COLORADO'S TURBULENT CAMPS.

Martial Law Declared and the Strikers Kept in Sullen Subjection-Operators Aid the Authorities-Plots to Commit Wholesale Murder Discovered.

VICTOR, Col., June 7 .- Order was outwardly restored throughout the Cripple Creek mining district to-day, but apprebension and terror are still felt. Over two hundred arrests have been made and the miners are kept in sullen subjection by a strong display of authority.

Acting Gov. Haggett to-day declared martial law in Teller county and will send the entire State militia to Victor and Cripple Creek if necessary to maintain order and ferret out the perpetrators of yesterday's dynamite outrage, and punish the man who precipitated the bloody rioting at the citizens' mass meeting in the evening.

Twenty-eight of the least vicious offenders drawn in by the drag net of th law to-day were deported after martial law had been declared. The others are being held for investigation. There is no talk of lynching or violence to-night.

The mine operators claim to have discovered in Miners' Union Hall photographs of men marked for assassination. They declare that some of these men were among those killed in the terrible explosion yesterday morning. There is a feeling of unrest that may culminate in some rash action. Two ropes repose in plain view on a table in the operators' headquarters, a significant reminder of what may come.

Three men were saved from lynching last night because only two of them were in custody and those who had plotted to hang them decided that they would wait until they caught the third. Two hundred members of the union are held in Bull Pen, including Coroner Doran, ex-Marshal O'Connor and ex-Sheriff Bobertson.

The city is in complete control of the local military company and Sheriff Bell. The authorities have made the blunt announcement that the first hostile move on the part of any one will be the signal for drastic measures. They propose to preserve peace at any cost. Lawlessness of any kind will not be tolerated and no quarter or mercy is to be shown persons who do not conduct themselves in a peaceable manner. The net result of yesterday's outrage is sixteen dead and twenty-nine injured. It is generally accepted that every one who is objectionable to the Mine Owners and Citicens' Alliance will be deported and a cam-

paign similar to that in force at Telluride inaugurated. No arrests have been made in connection with the Independence dynamite outrage, and the authorities have no definite clue as to who the offenders are. The bloodhound sent from Trinidad and placed on the trail of the man or men who exploded the dynamite lost the trail after following it several miles.

The Coroner's jury visited the scene of the explosion this morning, after which an adjournment was taken until 2 o'clock tomorrow afternoon, when the taking of evinoe will begin. The resignations of nearly all of the present city and county officers of Cripple Creek and Victor will be

With two hemp ropes lying on a table, knotted, noosed ready for hanging, the Cripple Creek District Mine Owners' Association ended a meeting early this afternoon, after having held a heated discussion all morning. The mine owners say that the photographs captured from the headquarters of the Victor union show half a dozen plots to murder non-union miners. The city has been thrown into great excitement by those discoveries, and violence is momentarily expected upon the men imprisoned

James Cochran, secretary of the union, was arrested at 12 o'clock and taken into the mine owners' headquarters for sweating. His statement is as follows:

"I do not know anything about these pictures except that they told me when I came here that they were taken to show the scabs. The marks by the names of the men who have been killed are mysteries to me. I was not present when the pictures were taken, and cannot tell you any more about them.

The pictures are of groups of non-union miners representing the shifts on the various mines. One of the men marked as a scab has been killed in an explosion. That was in the Vindicator catastrophe last November, when Charles McCormick and Mel Beck were killed. In the other cases those marked out on the photographs have disappeared from the camps, it is claimed by e operators, and time enough has not elapsed since the discovery of the pictures to determine how they went.

After the dynamiting of the railway station yesterday Sheriff Robertson, instead of searching for the dynamiters, went to the Coroner's morgue, endeavored to identify the mangled bodies and joined Coroner Doran in a statement that the explosion

was an accident. The mine owners and County Commissioners held a council, summoned Robertson to attend and asked him to resign. refused. The commissioners demanded his resignation and he again refused. A rope was thrown on the floor at his feet, he burst into tears, signed a resignation written out for him and was later arrested

and put in jail. Marshal O'Conner of Victor began appointing union miners as special police. Mayor French deposed him and O'Conner seized a gun store and supplied scores of union miners with arms and ammunition before he was arrested by the local militia

company, called out by the Mayor. The riot which followed a mass meeting of citizens last evening resulted in two men being killed and four wounded. These were non-union men. Armed citizens then riddled the hall with bullets, wounding hree miners and forcing forty-five others

Union stores started since the strike of last fall were raided by armed citizens and

Independence and Gold Field were visited by armed citizens after receiving reports of ugly threats made by armed union miners of those places. Union stores were raided and wrecked and windows of houses in which the union flag was shown were

nashed. When 150 union miners had been arrested special train was ordered by the Sheriff when 150 union miners had been arrested a special train was ordered by the Sheriff to take them to Cripple Creek, but on receipt of news that a lynching party would try to stop the train en route and hang the men the plan was sheadoned.

the plan was abandoned.

The corrected list of dead and wounded is as follows: Killed by explosion; L. S. Shanklin, Charles Barber, Henry A. Haas, Gus Augustine, Arthur Mulhousen, E. H. Johnson, Alexander M. Lean, John Kelso,

Shaw Warns Francis That He Will Take Charge if Default Is Made

Sr. Louis, June 7.-Secretary of the Treasury Shaw, who last Saturday wired President Francis, urging that the world's fair should be better advertised, showed the reason for his suggestion in another communication received to-day by the Exposition Company.

Secretary Shaw stated that if payments on the \$4,600,000 Government loan are not promptly forthcoming when due, he, as the guardian of the United States Treasury, will step in and take charge of the receipts and the collection of fair tickets.

The Secretary formally reminds the exposition company of the date for the payment of the first installment of the loan and incloses a copy of the rules governing the loan and repayment. These rules set forth that the loan was made in the months of February, March, April and May, 1904, and that in return the Government is to have a first lien on the receipts of the fair from paid admissions and concession privi-

Payments are to be made each half month. The first payment is due June 15, when forty per cent. of the gross receipts from June 1 to June 15 shall be surrendered. Thereafter at the 1st and 15th of each month forty per cent. of the receipts for the previous half month shall be paid and it is further provided that after the 1st of July the semi-monthly payments shall not be less than \$500,000 each.

SAYS HE SAW A BRIDGE JUMPER. Motorman Caught Figure in Headlight

Glare Climbing on the Cable. A man jumped off the Brooklyn Bridge last night, if the motorman of a Bergen street car saw straight. He made the plunge from the south roadway, about sixty feet nearer New York than the centre.

A closed Bergen street car carrying few passengers was nearing the highest part of the Bridge on its way to Brooklyn about 8:50 when Motorman Victor Ernstrom of 1684 Bergen street says he saw a man come into the glare of his headlight, climbing down a ladder which leads from the iron work over the cable tracks just west of the point where the great suspension dips under the road level. He was twenty vards ahead of the car, and all Ernstrom could see as the figure darted across the headlight glare was that the man wore dark clothes and a black derby. The motorman saw him climb upon the cable and then he disappeared into the darkness over the river. Ernstrom didn't stop his car. At the

Sands street end of the roadway he shouted to Policeman Keating that a man had jumped off the big bridge. He didn't stop to give particulars. Keating walked down the promenade to the spot where the ladder is and found some people, who said they had been around the place for some time. None of them had seen a man climb off the promenade.

On his next trip Keating stopped Ernstrom for more particulars. The motorman said then that he guessed the man was about 5 feet 9 inches and weighed around 160 pounds. Neither Ernstrom's conductor nor any of the passengers had seen the jumper.

INSULTS TO PASTOR AND WIFE. Pictures and Anonymous Notes Sent to Dr. Baylis of Brooklyn.

The Post Office authorities will be ap pealed to by the Rev. Dr. Charles T. Baylis, the pastor of the Bushwick Avenue Congre gational Church, Brooklyn, to aid in the detection of some person or persons who are causing him and Mrs. Baylis much annoyance by mailing to their home, 1081 Bushwick avenue, scurrilous pictures which depict them in ways that are anything but dignified, to say the least. Notes of the same character have accompanied the pictures. They are, of course, anonymous. Dr. Baylis would say but little about the matter last night, but it is the opinion among their friends that those responsible for the pictures and notes are among a

certain faction connected with the church. "I am pretty certain that the insulting stuff sent to Dr. Baylis and Mrs. Baylis was sent by the discordant element that causes trouble in every prosperous church, said a church member to a reporter. "They are only a few, but at times they bite like anakes in the grass. They are traitors to

their friends." In the offending pictures the faces are likenesses of Dr. and Mrs. Baylis. Some time ago a bazaar was held at the church at which photographs of the pastor and his wife were sold. The faces were cut out by the mischief makers, who then connected them with illustrations that are characteristic of sporting publications. The first

arrived a few days ago. This is not the first time, it is said, that trouble has been caused to a pastor of the Bushwick Avenue Congregational Church

by the opposing faction. "I cannot understand why Mrs. Baylis and myself should be treated so cruelly. said Dr. Baylis, to a reporter. "I will ask the postal authorities for aid in detecting responsible for the insults."

GHOST SURELY WALKED.

"It Was a Dream," Say the Police, but Where Is Hilda's \$149?

Hilda Semdorf, a Finnish servant, employed in the home of the Rev. Joseph M. Hodson, 520 Kingsbridge road, was robbed early on Monday morning of \$149, her savings since she has been in this country. According to the girl, a ghost was the thief

She declares that she saw it. Early on Sunday morning the minister's household was aroused by the cries of the girl, who was in her room on the third floor. When the women of the household reached the room, they found Hilda, frightened out of her wits, pointing to an open window. She couldn't speak English and no one

could learn what had frightened her. An interpreter was taken to the house on Monday morning. To him the girl said that she awoke from a sound sleep to see something, wearing a shroudlike garment, half white, half black, glide into the window. "I'm a ghost," said the figure. "Don't

make a sound." Then, according to the girl, the ghost walked to her trunk, lifted the cover and took her \$149. Then it went out the window

again Mr. Hodson was greatly impressed with the girl's story and reported the theft to the police of the Tremont station. They haven't been able to find any trace of the ghost or thief. They have an idea that the girl walked in her sleep and hid the money, forgetting when she awoke where she put it. They think she dreamed the ghost and the dream woke her up.

Merry Game of Short Circuiting Lands Small Boy in Court. A small boy was brought before Justice

McKean in the Children's Court yesterday charged with tying up the car lines on Avenue A.

"Exhibit B" in the case was a piece of vire which the lad, Abraham Hultz, of 355 East Tenth street, had amused himself by dropping down the trolley slot at Thirteenth street and Avenue A, thus short circuiting the current. When this was done, a ball of fire would shoot along the slot for a block or two, much to the delight of Hultz and his companions At the same time all cars in the district from Thirteenth street to Houston would come to a standstill and remain so until the wire

was removed.

Inspector Orsor, who appeared against Hultz, said that it was little short of a miracle some of the boys had not been killed, as the current which passed through the wire was of high voltage.

Albert Wirth and August Evans, two fishermen, heard screams that lasted but a short while. Rushing in the direction whence the cries came, they found the boat upside down and jammed crosswise in the space between the pier and the scow. Surmising that some one was beneath the boat, Evans, who is a big, muscular fellow, reached down and dragged the boat up toward the pier. Wirth held him by the feet while he did so. When the boat was raised, Evans grabbed the Goldberg and Moses boys, who were under it with their heads above

them to the shore. After the four lads recovered their strength, they hurried for home without saying anything about Samuel Thaler, who had gone down when the boat first upset. Thaler's parents spent a sleepless night on Sunday, and were almost distracted when Monday night came and their child had not returned. The other boys were repeatedly questioned about their missing companion and each time said they had lost him in a crowd on the elevated railway. \$40,000 ROBBERIES IN HOTEL.

MUCH JEWELRY RECOVERED ON ARREST OF TWO EMPLOYEES.

Detective, Installed as Guest at La Marquise, Followed Clerk to Room and Caught Him Red-Handed With \$25,000 Worth of Diamonds-Ready to Get Out.

Henry J. Dards, night clerk at the Hotel La Marquise, 12 East Thirty-first street, and George Glecker, bell boy in the same hotel, were arrested last night by two detectives of the Tenderloin station, charged with stealing jewelry and bric-à-brac from the guests of the hotel.

Various robberies have been reported at the hotel for several days past, the losses it is said, being nearly \$40,000. The particular theft which led up to the arrests last night was reported by Mrs. Halsey Corwin, daughter of Fred Engeman manager of the Brighton Beach racetrack, The thieves got nearly \$25,000 worth of jewelry. It was recovered after the ar-

When the hotel guests began to report to Manager William Spottswood, several days ago, that thieves had been in their rooms and carried away much jewelry and other valuable articles, he at once tool steps to catch the thieves. He kept watch known, and gave him the number without on the rooms for a day or two, but without concern. Shortly afterward the clerk heard

any results. Then he employed James Kennedy, a private detective, who was once house detective at the Waldorf-Astoria. Kennedy kept watch at the hotel for a day and then decided that it was a case for the police. Detectives McGuire and Galligan of the

Tenderloin station were then called in. McGuire and Galligan put on their best clothes two days ago, took dress suit cases in their hands and went to the La Marquise as guests. They kept watch on all the hotel employees and found that they were all above suspicion except Dards and Glecker. The clerk and bellboy did not sleep at the hotel. All the other help did. They had been employed there but two weeks. The detectives followed them home and found that they lived together at 150 East Thirtieth street. After that a close watch was kept on their movements.

Late last night, Kennedy said, he saw Dards going upstairs and followed him. Dards went to Mrs. Corwin's apartments on the ninth floor. Mrs. Corwin was in Brooklyn for the night.

Kennedy saw Dards let himself into Mrs. Corwin's apartments with a pass key. Then, Kennedy says, Dards collected Mrs. Corwin's jewelry and wrapped it up in a shawl.

Kennedy folowed Dards down to the street and then, in some manner, lost track of him Kennedy went back into the hotel and got McGuire and Galligan. They arrested Glecker, the bellboy, who confessed that he and Dards were the thieves, and said that they had expected to start to St. Louis this morning to sell the jewelry. Dards, he said, met him a few days ago and told him that he had got a job as night clerk in a hotel where it would be easy to rob the guests if he had somebody to help him. LEMONADE FOR WORSHIPPERS. This Is Not a Reward for Coming, but to Make Those There Comfortable

The board of governors of the Hudson City Y. M. C. A. in Central avenue, Jersey City, has decided to provide lemonade and palm leaf fans for everybody who attends the Association's religious services during the sultry summer season. Secretary Kloeppel said yesterday that

boys with trays will probably go among the worshippers at the Sunday prayer meetings and serve lemonade to all who are thirsty. He said the waiters could go on tiptoe so as not to disturb the service. "The hot weather problem," said the secretary, "has become serious in churches and missions. Very religious people some times are compelled to stay away because they cannot stand the heat. It is essential that churches should be made comfortable. We don't propose to offer lemonade and fans as an inducement to people to attend our meetings. We simply desire to make comfortable our regular attendants and anybody else who wishes to worship with us. Of course, we don't want thirsty outsiders. They can find all the refreshment they need in los cream parlors

The Belgian Commissioners will send Miss Roosevelt a souvenir of her visit to the Belgian building. The present is a very large and handsome vase of ivory, silve and bronze, which has been a feature of the decorations of the building. When Miss Roosevelt visited the place, she was asked to make a selection from among the vases, and chose this one. It is three feet in height and is valued at \$350.

ARREST MRS. ELIAS

Midnight the Hour Finally Selected to Do It.

POLICE BATTER DOOR IN

And Rush in to the Music of a Baby's Cries.

It Took More Than an Hour to Persuade John R. Platt to Swear to a Complaint of Extertion to Base a Warrant On-Police Get Around to the House Half an Hour After Her Lawyer Had Got Tired Waiting and Gone-Woman Taken Downtown to Police Headquarters in a Carriage.

The arrest of Hannah Elias in a criminal proceeding, which has been talked of ever since the aged John R. Platt brought suit last week to recover \$685,000 that he says she obtained from him by blackmail, was finally decided upon late last night and effected about midnight. Her lawyer, who had waited at the house at 236 Central Park West until 10:30 o'clock, had been gone about a half hour when the battering down of her front door began. Before the door yielded she had time to dress herself, but she hadn't done it, and she kept the detectives waiting for a long time before she was finally put into a cab and driven

to Police Headquarters. Four detectives and two policemen battered at the heavy oak vestibule door for almost half an hour before it yielded. It then took but a few minutes to force the inner door, the upper half of which was glass. Pushing inside the police lighted the gas on the first floor, but found no one there. A baby's cries could be heard from an upper floor.

Dashing up the stairs the detectives found Mrs. Elias, not much excited. She bade them wait until she had dressed herself suitably for a night in a Police Headquarters cell, and the police waited. A servant said that the baby whose cries had been heard was the child of Mrs. Elias. HARD GETTING PLATT TO COMPLAIN.

The midnight storming of the octoroon's castle followed a long conference held at the house of John R. Platt, at 1 East Fiftyfourth street. Assistant District Attorney Lord, Magistrate Ommen, Mr. Platt and his lawyer, Lyman E. Warren, were concerned in this conference. An attempt was made on Monday night to get Platt to swear to warrant charging the negress with exyesterday, Chicago and Nothwestern was tortion, but he halted.

Yesterday District Attorney Jerome de clared that unless Platt swore to a complaint upon which a warrant could be based he would make public all his information regarding the case and also what he had eard of an attempt to effect a settlement at half price or some other discount. At 8:50 o'clock last night Assistant Dis-

the Olympic games at the Stadium Satur- and the three went to Platt's house. The octogenarian was in bed asleep, but he was awakened. A complaint had been drawn up, setting forth the allegations in the case. All that was lacking was Platt's signature. It was 10:10 o'clock before Platt finally

agreed to swear to the complaint and then not without much persuasion. As soon as he had secured the warrant Assistant District Attorney Lord went to a nearby telephone and called on Police Headquarters for help. Detective Sergeants Fogarty and Flan-

nelly were sent up from Mulberry Street and Detectives Walsh and Kerr, together with Policemen McKenna and Buchanan, were sent around from the West Sixty-eighth street station. Just about this time, at 10:30, Washington Brauns, the woman's lawyer, and Dr Van Tine, her physician, were leaving the

house. The lawyer, who had been waiting

there some time, said he guessed nothing

would happen that night. ORDERS TO BREAK THE DOOR IN. The policemen reached the house at 11 clock, which was before Mr. Lord arrived. He was but a few minutes later, and reach ing the stoop handed the detectives the warrant and said:

"This warrant charges Hannah Elias with criminal extortion. You must arrest her, even if it is necessary to break down the doors. Before doing anything else Detective Sergeant Fogarty, who assumed command

of the police division, sent Policem McKenna and Buchanan around to guard the rear of the house. Then Fogarty rang the bell, getting no esponse. He kept ringing for more than five minutes, but no sign of life was exhibited from the inside. The front of the

house was in total darkness. After ringing the bell Detective Fogarty called out: "We are policemen, and we have a warrant for the arrest of Hannah Elias! II these doors are not opened, they will be

broken down!" WHOLE STREET WAKES UP.

This brought no response from the house, but it woke everybody else up for two blocks along Central Park West. Windows flew up and soon the night-robed persons who had at first been behind them appeared on the street dressed otherwise. Passengers on the north and south bound Eighthiavenue cars saw what was taking place and the greater part of them gol

off. The motormen also wanted to see the

fun and either halted their cars or moved by very slowly. Soon there was a blockade of cars and the crowd had grown to such proportions that both street and sidewalk were blocked, The reserves of the West Sixty-eighth street station were sent for and cleared the block in front of the house after a lot of hard work.
